Green World now serves learners with an outreach of 195 countries globally via the 'live online' virtual training platform! Experience the 'new norm' of learning on our award winning and certified platform!

GREEN WORLD GROUP

"Green World Group" came into existence by 06th February 2006 in Ajman, United Arab Emirates. The primary vision was to provide customized Health, Safety & Environmental Courses & Consultant Services to its Clients and Training Safety Professionals in the stream of Occupational Health, Safety & Environment. Treading the growth path with the support of strong ethical crutches such as honesty, integrity, and collaboration, GWG has achieved one milestone after another since its humble beginnings.

The bespoke nature of the Courses offered is highly appreciated and valued by our clients whose requirements extend beyond the scope of standardized courses offered by most Organizations. The course Curriculum and Impartment methodology has been approvable by top UK Boards.

GWG Provides Health and Safety International Certification training programs through

- E-LEARNING
- CLASS ROOM TRAINING
- VIRTUAL TRAINING
- IN COMPANY TRAINING

Green World now serves learners with an outreach of 195 countries globally via the 'live online' virtual training platform! Experience the 'new norm' of learning on our award winning and certified platform!

Green World Group expands its horizons by offering range of RoSPA Accredited E-Learning courses in partnership with Human Focus International .

These Courses aimed at providing individuals with an overview of key health and safety Skills topics .

On Successful completion candidate will receive a RoSPA accredited certificate and can print a wallet card with a unique identifier number.

FIRST AID AWARENESS

First Aid is essential for the immediate treatments of accidents before help from the emergency services arrive. Taking this course could really mean the difference between life and death and help minimize the severity of an injury. The objective of the course is to ensure that an individual is aware of basic first aid techniques until a qualified First Aider arrives at the scene.

FIRE SAFETY

This course takes a brief look at the general principles of fire safety and what to do in the event of a fire. This course will aim to give you an overview of Fire Safety, and what to do in the case that a fire should break out in your workplace.

ACCIDENT INVESTIGATION

Thorough investigation into any workplace accident is necessary to help prevent recurrences. The Accident Investigation course will give you a broad understanding of the accident investigation process and its benefits. This course will equip your employees with the essential knowledge, skills and tools to conduct investigation and prevent costly recurrences.

Green World now serves learners with an outreach of 195 countries globally via the 'live online' virtual training platform! Experience the 'new norm' of learning on our award winning and certified platform!

PERMIT TO WORK

The courses provide an introduction for all employees in the role and function of a permit to work (PTW) system and explore the duties of different participants from site managers to frontline workers. These permit to work training courses raises awareness that a safe work permit system can easily descend into a meaningless general permit to work form and how PTW system failures commonly cause serious accidents.

LIFTING OPERATIONS

This course briefs, How to undertake a lifting operations risk assessment to conform with the lifting regulations (LOLER regulations).

WORKING AT HEIGHT

This Working at Height training course helps you to comply with the Work at Height Regulations by providing employers and employees with the necessary information needed to be able to successfully deal with working at height risks and control measures.

Training Certificate

This is to certify that

MEHTAB ALAM
or
Green World Group

Has completed health and safety training in the following subject:

What Everyone Needs To Know About Permits To Work

19 September 2018
